

Refunds / Cancellations / Returns

Please contact Twinstunts@gmail.com with any questions regarding products or existing orders.

If we are given enough notice before your item is about to ship "at least 2 or more days" we can cancel orders. If your item is about to ship, we may not cancel your order or we may not even see your inquiry requesting cancellation before it is sent out.

We try to respond to inquiries every 1-2 business days, we are not guaranteed to respond to inquiries over the weekend. However, customer service is one of our top priorities and we will respond if able.

If you are canceling your order, we will process the refund at the same time as the cancellation.

Please note that your refund will be processed on our end as soon as we submit it, but the bank on the receiving end may take 3-5 business days to process. If you have not received a refund in your account but we emailed you that it has been refunded, please call your bank.

REFUNDS:

Please be aware there are no refunds on our parts. Our Parts are NON-RETURNABLE once order is shipped due to the custom and made to order processes involved.

Updating an Existing Order:

If you want to update an order for any reason - edit existing information or add or remove products - please reach out to our customer support team at twinstunts@gmail.com with your order number and issue. We will do our very best to solve any errors or mistakes in a timely manner. Please do not create a separate order, this could result in miscommunication or mishandling of your order. We will follow up via email with a solution to your problem.
